ALIF FAJRI ANTARIKSA

Adress: Bandung, West Java | Mobile No./WA: (+62)895-0637-8300 | Email: fajrialifantariksa.afa@gmail.com

PROFILE

An experienced Design Engineer in the manufacturing industry with expertise in product design and development using CAD and simulation software. Has experience working at PT Polylamina Teknologi Indonesia, participating in the Taiwan Experience Education Program international internship programme, and internship at PT Tri Graha Sealisindo. Proficient in using CAD software such as SolidWorks, PTC Creo, Inventor, Siemens NX, AutoCAD, ZWCAD, and simulation software such as Abaqus CAE and Ansys Simulation.

SKILL

Hardskill

- 3D and 2D Design using CAD Software
- Design analysis and optimisation with FEM
- Knowledge of materials and manufacturing processes
- Engineering documentation according to international standards

Softskill

- Can lead a group
- Well communication
- Critical thinking
- High adaptibility

Software

- Solidworks
- PTC Creo
- Autodesk Inventor
- Siemens NX
- Abaqus CAE
- AutoCAD
- ZWCAD
- Ansys Simulation
- Microsoft Office

CERTIFICATION

Engineer Desain Mesin / Mechanical Design Engineer **October 2023 – October 2026**
National Professional Certification Agency – POLMAN Bandung Professional Certification Body.
Registration Number: LOG 1363 00141 2023

Basic Programming PLC & HMI Mitsubishi **May 2022**
Engineering Academy – Anak Teknik Indonesia
Registration Number: PLM-VI-22-ATI-216735080

Project Management & Scheduling With Microsoft Project **October 2020**
Registration Number – Anak Teknik Indonesia

EDUCATION

Bandung Polytechnics for Manufacturing **2019 – 2024**
D4 – Manufacturing Design Engineering Technology GPA: 3.16/4.00

- Final Project "Design of Elephant Grass and Corn Stalk Cutting Machine with 2-3 cm Cut as Silage Material for Cattle Feed";
- Participated in the Taiwan Experience Education Program (TEEP) international internship programme at National Chin-Yi University of Technology;
- Participated in the Industrial Practice Programme at PT Tri Graha Sealisindo;
- Participated in campus organisations at the department level, namely the Design Engineering Student Association.

WORK AND INTERNSHIP EXPERIENCE

PT Polylamina Teknologi Indonesia **December 2023 – December 2024**

Design Engineer

- Simulating the design strength for the Bandung Al-Mumtadz Mosque interior project;
- Design a preliminary design of the gutter of the BI-IKN building facade;
- Designing Tool Mould Design for FRP mould for BI-IKN building;
- Simulating the strength of the bracket to be installed;
- Making engineering data for price quotes;
- Making Drawings which include Raw Material Drawing, Tool Mould Drawing, Module Drawing, and Shop Drawing for each FRP moulded for the BI-IKN building.

Taiwan Experience Education Program **September 2022 – January 2023**

Internasional - Internship

- Received training on semi-conductors, especially on the manufacturing process;
- Conducted research and study in the laboratory;
- Visits to factories & manufacturing technology centres in Taiwan;
- Introduction to Taiwanese culture.

PT Tri Graha Sealisindo

Design Engineer – Internship **March 2022 – July 2022**

- Designing a 4" – 18" Ring Spiral Wound Gasket Vending machine;
- Design a plate shearing knife sharpening machine;
- Designing an anchor bending tool;
- Modify the design of the SWG outer ring press machine;
- Making working drawings of maintenance components;
- Make a cost estimate of the machine design;
- Repair the saddle of the circular Expansion Joint Fabric machine.

ORGANIZATION

Design Engineering Student Association **2021 – 2022**

Legislative Chairman

- Take the lead in legislative meetings to discuss policies, laws, and important legislative issues for the organisation;
- Be the main leader in the implementation of supervision of the executive body of the organisation on the review of laws that have been mutually agreed upon;

- Coordinating and managing the organisation's legislative members;
- Responsible for all legislative activities in the organisation;
- Decision/policy maker in the legislative field of the organisation.

Design Engineering Student Association **2020 – 2021**

Vice Chair of the Organization Knowledge Development Division

- Support the division chairperson in planning, organising, and supervising the division's work programme;
- Representing the chairperson in all divisional work programmes when absent;
- Being a division representative at internal organisational meetings together with the division chairperson;
- Become a bridge between the chairman and division members related to the aspirations of division members;

LANGUAGE

Bahasa Indonesia – Native Speaker
English – Intermediate
